

FUN FACTS

**DID YOU KNOW?
HEMP CAN DO THAT!**

01

Hemp cultivation dates back 8,000 years to Mesopotamia where it was woven into fabric. It is believed to be the first domestically-utilized plant.

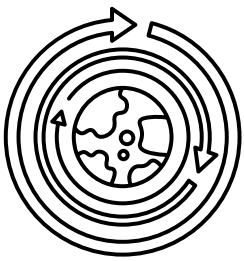

02

Hemp is a high-yield crop. One acre of hemp produces four times more paper-producing fiber pulp than one acre of trees.

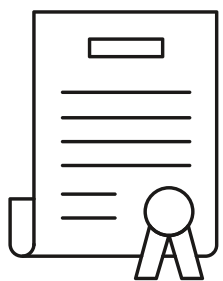

03

Hemp has a very short harvest cycle. It can be planted and harvested in 120 days.

04

Hemp captures carbon emissions. Hemp takes in high amounts of carbon dioxide. For every ton of hemp grown, 1.6 tons of carbon is removed from the atmosphere.

05

The U.S. Constitution and the Declaration of Independence were written on hemp paper.
